Rahul Mehta

Junior Software Developer (Recent Graduate)
rahul.mehta@example.com | +1 (555) 010-0195 | Pittsburgh, PA | github.com/example-rmehta

Professional Summary

Recent computer science graduate with hands-on Python experience from coursework, an internship and personal projects. Eager to grow as a backend or data engineer.

Experience

Software Engineering Intern - Keystone Analytics (Summer 2025)

- Built a Python (Flask) dashboard API used by the support team to track ticket backlogs.
- Wrote pytest suites that raised coverage of the reporting module from 41% to 85%.

Teaching Assistant, Data Structures - Carnegie Mellon University (2024 - 2025)

- Ran weekly recitations and graded Python and Java assignments for 120 students.

Projects

- Campus Ride-Share Matcher - Python/Flask app pairing students by route, 400+ active users.
- Stock Sentiment Tracker - Python script scoring headlines with NLTK and charting trends.

Education

B.S. Computer Science, Carnegie Mellon University, 2025 (GPA 3.7)

Skills

Languages: Python, Java, SQL, C

Frameworks: Flask, pandas, pytest

Tools: Git, Docker (basic), Linux, PostgreSQL

Certifications

- Python Institute PCEP (2024)
